1 Bedroom in a Condo Unit
(double occupancy)
\$2,500 diver / \$2,300 non-diver

Bonaire

March 13-20, 2020

Not your typical dive vacation! This is a dive

adventure. If your ideal get away includes nonstop action, and thrills; this trip is for you. Two of our adventurous and tireless instructors, Jeff and Stacey Mormol will serve as your guides to both the iconic and less traveled areas of this beautiful Caribbean island. There will be a focus on both dive education and new experiences. This is an ideal trip for one wanting to complete their open water certification dives, an individual looking to become a master scuba diver (PADI's highest rated level of recreational diving) or even a PADI Divemaster.

This trip includes the rare opportunity to experience the Ostracod during a supermoon. The Ostracod night dive is a bioluminescent light show like you have never seen. A few days after the full moon, tiny crustaceans called Ostracods put on a brilliant mating display that lights up the ocean surrounding you in points of light. Some describe it as drifting weightless through space among hundreds of stars. The incredible part of this dive is that no external light is necessary to create the bioluminescence. The crustaceans supply the light themselves! This occurrence happens only twice a year in a few places on earth... and we are gonna be there when it happens!

Disclaimer: Y-kiki and its professional staff Jeff and Stacey Mormol are not responsible if a vacation is necessary after returning home. Y-kiki is also not responsible if you return home a more advanced diver and are no longer satisfied with traditional dive trips.

An initial deposit of \$500 per person is required at sign-up. 2nd payment of \$1,000 is due Dec. 1, 2019. Final payment is due by Feb. 1, 2020. Deposits and payments are nonrefundable unless we can fill your space. We strongly encourage you to purchase trip cancellation insurance. We also encourage each diver to have diving accident insurance.
