Thanks to the breathtaking marine life in its waters, Cocos Island was named one of the ten best scuba diving spots in the world and a "must do" according to diving experts. And it's been on Y-kiki's bucket list for years. Join us as we turn this "must do" dive site into a reality!

Among Cocos Island's many attributes is a startling degree of biodiversity. This island's world-renowned waters explode with life including innumerable white tip reef sharks, schooling hammerheads, dolphins, mantas and marbled rays, giant moray eels, sailfish, and of course the occasional whale shark. Other common encounters are large schools of jacks and tuna, silky sharks, silver tips, marlin, Creole fish, green turtles and octopus.

Our trip itinerary will be arranged to rendezvous with the Argo, the mother ship for the DeepSee Submersible. For those interested, the opportunity exists to take a dive into the abyss aboard DeepSee.
