

The Galapagos Islands Humboldt Explorer July 12-19, 2010

On the isolated shores of the Galapagos Islands, the flora and fauna, adapting to diverse conditions, evolved into species found nowhere else in the world. Their uniqueness, and especially the variations from island to island, can be clearly witnessed, making Darwin's Theory obvious even to the amateur. Today, the islands are still nature's laboratory of evolution where the animals' lack of fear rewards the visitor with a feeling of being part of nature itself.

Join Y-kiki Divers for an amazing 7-night private charter exploring these famous islands. A once in a lifetime experience you won't want to miss!

Accommodations:

Explorer Ventures has announced we will be on their brand new boat, the Humbolt Explorer which began construction in August 2009. All cabins are air-conditioned and have private bath and showers, an ocean view and a flat screen TV. A partially covered sundeck with jacuzzi, ample seating areas, a salon including a lounge area and a spacious dive deck with a large camera table are just some of her amenities.

Adding on to the trip:

For travelers wishing to add-on land tour excursions, we can do a 3-night or 4-night option. Contact us for additional information and pricing.

Cost of trip includes:

- Roundtrip air from St. Louis to Quito, Ecuador
