

FROM DULL...

...TO DAZZLING!!!

Lightroom is a great way to organize and process your underwater photographs. But it's important to get it set up correctly from the beginning. To avoid an organizational nightmare and frustration with tweaking your images, sign up for this 5 session class. We will start at the beginning, get your program preferences set up, then learn how to organize your images and process them to make them look their best! We will also look at using Lightroom to create slideshows and books of your trips and special memories.

Each class is 90 minutes, and they are being held a few weeks apart so you will have time to work on your own to get familiar with the program and come ready with any questions.

Class will require you to have a current version of Lightroom installed on your computer. I suggest looking into the monthly subscription of Adobe Creative Cloud for Photographers. The cost is 9.99 per month, but there are often specials for the first year with discounts. You can also choose to purchase Lightroom as a stand-alone program, but it works out to be less expensive to join Creative Cloud because it comes with a full version of Photoshop as well! We will be offering a Photoshop for Underwater Photographers starting next Spring so stay tuned!!

**When:** Oct. 4, Oct. 18, Nov. 15, Nov. 29 and Dec. 6, 2017

**Where:** Y-kiki Creve Coeur Classroom

**Time:** 7 p.m.

**Cost:** \$200 per person for all 5 sessions
