

PADI Open Water Diver Course

If you've always wondered what lies beneath the surface, now's the time to find out! Start the journey of a lifetime with the PADI Open Water Diver course. It will change you forever. In the PADI Open Water Diver course, your PADI Instructor takes you through the basics of learning how to scuba dive. You start in a pool and progress to the open water (ocean, lake, quarry, etc.) getting the background knowledge along the way. Learning to dive isn't difficult, but like any activity worth doing, it requires some time and effort. The course encompasses three phases: Knowledge Development, Confined Water Dives and Open Water Dives.

1. Knowledge Development – This develops your familiarity with basic diving principles and procedures. You learn things like how pressure affects your body, how to choose the best gear and what to consider when planning dives. You complete the Knowledge Development portion in one of two ways:

Classroom setting: You complete the Knowledge Development on your own, reading each of five sections of the PADI Open Water Diver Manual and watching the corresponding section of the PADI Open Water Diver Video (which also previews skills you'll practice in the pool). In a classroom environment with other students, we'll briefly review what you've studied, a Y-kiki instructor will elaborate on the information, demonstrate the various pieces of equipment and quiz you for comprehension. At the end of the course, you take an exam that makes sure you've got all the key concepts and ideas down.

eLearning: Whether you're on the go or want to take it slow, now you can complete the Knowledge Development portion of the PADI Open Water Diver Course *online* with PADI eLearning. It's a great match for an active schedule. With PADI eLearning, you have convenient online access to knowledge development course materials for one year. You'll read and complete each of five sections of the manual online, watching corresponding video clips along the way and completing the final exam online. Once you've completed all the segments, you can print your eLearning Record and bring it in to Y-kiki Divers to schedule your pool and open water dives.

Cost: To start the PADI eLearning course, go to Y-kiki's main web page (www.y-kiki.com) and click on the eLearning icon at the bottom of the screen. The eLearning coursework is \$120 plus the enhancement crew pak of \$37. The confined water training is \$140 and the open water training is \$150. Purchase your personal equipment (mask, fins, snorkel and boots) from Y-kiki and receive a 10% savings. *Mask, fins, snorkel & boots are required for this class.*

2. Confined Water Dives – This is what it's all about – diving. You develop basic scuba skills in a pool. Here you'll learn everything from setting up your gear to how to easily get water out of your mask without surfacing. You'll also practice some emergency skills, like sharing air – just in case. There are five confined water dives each building upon the previous. Over the course of these five dives, you attain the skills you need to dive in open water. Plus, you may play some games, make new friends and have a great time.

3. Open Water Training Dives – After your confined water dives, you and the new friends you've made continue learning during four open water dives at a local dive site. This is where you have fun putting it all together and fully experience the underwater adventure – at the beginner level, of course. You may make these dives locally or at a more exotic destination on vacation (called a referral).

Earning your PADI Open Water Diver certification is just the *beginning*. As a certified diver, fabulous dive destinations, exciting people, unparalleled adventure and uncommon tranquility await you.

Prerequisites: 10 years old for Junior Open Water Diver and 15 years old for Open Water Diver. Good health, reasonable fitness and comfort in the water.

Materials Needed for Classroom Setting: PADI Open Water Crew-Pak, PADI Open Water Video and Log Book insert pages (provided in cost of class). Your personal equipment: mask, fins, snorkel & boots.

Cost: \$380. Purchase your mask, fins, snorkel and boots from Y-kiki Divers and we'll discount the class to \$280.

Referral: Going on vacation and want to learn to dive? Why waste vacation time sitting in a classroom? Complete your knowledge development sessions (either in a classroom setting or with eLearning) and confined open water dives with Y-kiki Divers and then complete your open water training dives on vacation. Cost is \$325. Purchase your mask, fins, snorkel and boots from us and we'll discount the class to \$225.
