

Saba, St. Kitts & St. Maarten

M/V Caribbean Explorer II

Feb. 17-24, 2018

We loved our dive vacation to Saba in 2014 and now we are pleased to offer a liveaboard vacation onboard the Caribbean Explorer II to allow us to really get some dives in. The Northeastern Caribbean is an intriguing area offering a blend of Dutch, British, French and native cultures on some of the most scenic islands of the Caribbean.

Saba, known for its submerged offshore pinnacles, is the 5 square mile top of a dormant volcano towering 3,000 feet above the surface and surrounded by volcanic sand. The abrupt topography above the sea is mirrored below, and the profusion of marine life attests to the early institution of the Saba Marine Park in 1987.

St. Kitts offers the widest variety of sites including finger reefs, recent wrecks, and a variety of dropoffs that will capture your imagination.
