## Explore Baja ~ Sea of Cortez

We've made this magical trip a couple of times and it is one of our all-time favorite adventures. Twice a year the Rocio del Mar offers a trip that covers all of Baja California – a repositioning trip. It's a 13 day adventure – where we will begin in Puerto Penasco and disembark in San Jose de Los Cabos. Experience what very few people have. A journey where there are no roads, very few people and almost no boats. The stars at night are so close that you can reach out and are surprised that you cannot touch them.

The Sea of Cortez remains a secret oasis where the desert meets the sea. During the day we move from one island to the next, diving 3 to 4 times daily. The bio-diversity between the Northern and Southern Sea of Cortez is incredible and this trip allows you to see giant jaw fish, snorkel with whale sharks, night dive with mobula rays, twirl with sea lions, photograph nudibranchs and get lost in a school of sardines. The sea life we witness on the surface from the boat, pangas or snorkeling, is equally mesmerizing: dolphins, sea lions and schools of traveling whales. Enjoy diving, hiking, kayaking, snorkeling and several land excursions exploring small towns and missions.
